S i r :

In response to the supplemental restriction requirement mailed December 13, 2006, directed to added claims 266-303, applicants elect the species of claim 276, i.e., the immunogenic agent is "at least nonavalent".

The restriction is traversed because the species are clearly overlapping in the sense that a nonavalent agent can comprise the immunogens included in an octavalent, nonavalent, etc. agent. In addition, claim 275 ("at least octavalent") includes nonavalent agents.

The restriction is also traversed on the ground that generic claims are allowable. Claims 266, 267, 277-283, and 292-303 were identified as generic. As to the remainder of the added claims, claims 275, 276, and 291 all read on the elected species.

Respectfully submitted,
